

MOHAMMED Ali AL-BAYATI
Ph.D., DABT, DABVT
PATHOLOGIST & TOXICOLOGIST

Toxi-Health International
150 Bloom Dr.
Dixon, CA 95620
Phone: (707) 678-4484
FAX: (707) 678-8505
Email:maalbayati@toxi-health.com

Summary of qualifications and experiences:

I am a pathologist (Ph.D.) and a dual board certified toxicologist (DABT and DABVT). I obtained my Ph.D. in comparative pathology from the University of California Davis. I have over 25 years of experience in conducting biomedical research (pathology, toxicology, biochemistry, and immunology), teaching, and serving as an expert witness in many medical-legal cases. I have published more than 50 articles in peer-reviewed medical and scientific journals.

I have evaluated many cases of children who suffered from adverse reactions to medications and vaccines and infections. In these cases, their caretakers were falsely accused of injuring them by shaking (Shaken Baby Syndrome) and/or trauma. In addition, I have evaluated cases of misdiagnosed children and adults who have suffered from adverse reactions to medications and vaccines. I also evaluated many cases of workers who were exposed to chemicals at the workplace.

Personal information: United States Citizen

I. Educations and experiences in human pathology, toxicology, biochemistry, and immunology

I-A. Educations:

Ph.D. 1989 Comparative Pathology. University of California Davis

Davis, California.
(Subjects of study: Human Pathology; Medical Immunology; Medical Biochemistry; Analytical Toxicology; Environmental Toxicology; Experimental Toxicology.)

DABT 1994 Diplomate, American Board of Toxicology
(Human, experimental, regulatory, and environmental toxicology)

I-B. Professional experiences:

1997-Present Pathologist & Toxicologist
Toxi-Health International
150 Bloom Dr., Dixon, CA 95620

1996-1997 Toxicology Information Specialist and Outreach
Coordinator, Center for Environmental Health Sciences
University of California Davis, Davis, CA 95616

I-C. Publications in human pathology and toxicology dealing with medical-legal cases involving children and adults:

[1] Al-Bayati MA. Analysis of Causes That Led to Baby Lucas Alejandro Mullenax-Mendez's Cardiac Arrest and Death in August-September of 2002. Medical Veritas; Vol. 1 (1): 45-63, 2004.
Case location: Pennsylvania, USA

[2] Al-Bayati MA. Analysis of causes that led to Toddler Alexa Shearer's cardiac arrest and death in November 1999. Medical Veritas; Vol. 1(1): 86-117, 2004.
Case location: Maryland, USA

[3] Al-Bayati MA. Shaken baby syndrome or medical malpractice? Medical Veritas; Vol. 1 (1): 78-90, 2004.

Case location: Describes four cases from Pennsylvania, Maryland, and Florida, USA

[4] Al-Bayati MA. Severe hair loss induced by vaccines and reversed by the treatment with zinc. Medical Veritas; Vol. 1 (2): 159-162, 2004.
Case location: California

[5] Al-Bayati MA. Analysis of causes that led to Baby Robert's respiratory arrest and death in August of 2000. Medical Veritas; Vol. 1 (2):179-200, 2004
Case location: Florida, USA

-
- [6] Al-Bayati MA. Analysis of Causes That Led to Baby Alan Ream Yurko's Cardiac Arrest and Death in November of 1997. Medical Veritas; Vol. 1 (2): 201-231, 2004.
Case location: Florida, USA
- [7] Al-Bayati MA. Analysis of Causes That Led to the Bleedings in the Subdural Spaces and Other Tissues in Baby Alan Ream Yurko's Case. Medical Veritas; Vol. 1 (2): 231-238, 2004
Case location: Florida, USA
- [8] Al-Bayati MA. Assessment of adverse reactions to vaccines given to Greyson and Gwyneth with recommendations for clinical tests. Medical Veritas; Vol. 2 (1): 325-330, 2005.
Case location: Arizona, USA
- [9] Al-Bayati MA. Did Bryant Arroyo kill Baby Jordan Anthony Shenk, as alleged by the Commonwealth of Pennsylvania? January 7, 2005. Lancaster County, PA
Medical Veritas; Vol. 2 (1): 367-382, 2005.
Case location: Pennsylvania, USA
- [10] Al-Bayati MA. Analysis of Causes That Led to Eliza Jane Scovill's Cardiac Arrest and Death. Medical Veritas; Vol. 2 (2):567-581, 2005.
Case location: California
- [11] Al-Bayati MA. Comparative analysis of the autopsy reports of Destiny Jacobo and Eliza Jane. Medical Veritas; Vol. 3 (1):1-5, 2006.
Case location: California
- [12] Al-Bayati MA. Analysis of causes that led to bleeding, cardiac arrest, and death in the case of baby Nadine. Medical Veritas; Vol. 3 (2): 997-1012, 2006.
Case location: Sweden
- [13] Al-Bayati MA. Analysis of Causes that Led to Subdural Bleeding and Rib Fractures in the Case of Baby Patrick Gorman. Medical Veritas; Vol. 3 (2): 1019-1040, 2006.
Case location: North Carolina, USA
- [14] Al-Bayati MA. Histopathological features of Eliza Jane Scovill's and Destiny Jacobo's lungs with analysis of the causes of death in both cases. Medical Veritas; Vol. 3 (2): 1041-1048, 2006.
Case location: California
- [15] Al-Bayati MA. A case of medically unjustified treatment with multiple mega doses of vitamin C with thyroid hormones that caused serious adverse reactions in a woman. Medical Veritas; Vol. 4 (1): 1235-43, 2007.

Case location: California

- [16] Al-Bayati MA. A missed case of poisoning with arsenic. Medical Veritas; Vol. 4 (1): 1244-50, 2007.
Case location: California
- [17] Al-Bayati MA. Analysis of causes that led to the development of vitiligo in Jeanett's case with recommendations for clinical tests and treatments. Medical Veritas; Vol. 4 (1): 1251-62, 2007.
Case location: California
- [18] Al-Bayati MA. Analysis of causes that led to subdural bleeding, skull and rib fractures, and death in the case of baby Aerial Buie. Medical Veritas; Vol. 4 (2): pages 1452-69, 2007.
Case location: Texas, USA
- [19] Al-Bayati MA. Analysis of causes that led to baby Stryker Eoghan Burke sudden death. Medical Veritas; Vol. 4 (2): pages 1470-83, 2007.
Case location: Canada
- [20] Al-Bayati MA. Analysis of causes that led to Charles Fleming's illness and sudden death. Medical Veritas; Vol. 5 (1): pages 1543-1572, 2008.
Case location: Virginia, USA
- [21] Al-Bayati MA. Analysis of causes that led to rib and skull fractures, sudden illness, intracranial bleeding, and death in the case of toddler Roman Pitts. Medical Veritas; Vol. 5 (1), 1573-88, 2008.
Case location: Texas, USA
- [22] Al-Bayati MA. Analysis of causes that led to rib and skull fractures and intracranial bleeding in the case of the premature triplets Parneet, Sukhsaihaj, and Imaan. Medical Veritas; Vol. 5 (1): 1589-1609, 2008.
Case location: Canada
- [23] Al-Bayati MA. Analysis of causes that led to baby Ryan's hemorrhagic pneumonia, cardiac arrest, intracranial bleeding, and retinal bleeding. Medical Veritas; Vol. 5 (2), 1757-74, 2008.
Case location: New York
- [24] Al-Bayati MA. Analysis of causes that led to toddler Steven Young's respiratory arrest, intracranial and retinal bleeding, bronchopneumonia, peritonitis, and death. Medical Veritas; Vol. 5 (2), 1775-96, 2008.
Case location: Arizona

[25] Al-Bayati MA. Analysis of causes that led to baby Jackie Ray's developmental delay and intracranial bleeding. *Medical Veritas*; Vol. 5 (2), 2008.

Case location: Texas

[26] Al-Bayati MA. Analysis of causes that led to Evyn Vaughn's respiratory arrest, intracranial and retinal bleeding, and death. *Medical Veritas*; Vol. 6 (1), 1938-1959, 2009.

Case location: Texas

[27] Al-Bayati MA. Analysis of causes that led to baby Ron James Douglas' cardiopulmonary arrest, bleeding (intracranial, retinal, and pulmonary), and rib fracture. *Medical Veritas*; Vol. 6 (1), 1960-1977, 2009.

Case location: Nevada

[28] Al-Bayati MA. Analysis of causes that led to baby Huda Sharif's intracranial and retinal bleeding and fractures of the left humerus and the 7th rib. *Medical Veritas*; Vol. 6 (1), 1677-1991, 2009.

Case location: California

II. Patents

[1] U.S. PATENT NUMBER: 5,686,237

PATENT DATE: NOVEMBER 11, 1997

USE OF BIOMARKERS IN SALIVA TO EVALUATE THE TOXICITY OF AGENTS AND THE FUNCTIONS OF TISSUES IN BOTH BIOMEDICAL AND ENVIRONMENTAL APPLICATIONS.

[2] U.S. PATENT NUMBER: 6,537,744

PATENT DATE: MARCH 25, 2003

USE OF BIOMARKERS IN SALIVA TO EVALUATE THE TOXICITY OF AGENTS AND THE FUNCTIONS OF TISSUES IN BOTH BIOMEDICAL AND ENVIRONMENTAL APPLICATIONS.

III. Research and teaching experiences

III-A. Educations:

DABVT 1996 Diplomate, American Board of Veterinary Toxicology

MVSc. 1978 University of Cairo, Egypt
(Veterinary pathology)

BVMS 1975 University of Baghdad, Iraq
(Veterinary sciences)

III-B. Professional Experiences:

-
- March, 2000- June 2003 Conducting biomedical research (contract)
Variable times (40-89%)
Department of Molecular Biosciences
University of California Davis, Davis, CA 95616
- 1991-1996 Assistant Research Toxicologist (Faculty position).
Institute of Toxicology & Environmental Health
University of California Davis, Davis, CA 95616
- 1991-1992 Served as a faculty advisor for 72 undergraduate students of
various academic disciplines. (5-10 hours per week)
University of California Davis, Davis, CA 95616
- 1986-1990 Staff Research Associate IV, Toxicologist
Institute of Toxicology & Environmental Health
University of California Davis, Davis, CA 95616
- 1979-1986 Staff Research Associate II, Toxicologist
Institute of Toxicology and Environmental Health
University of California Davis, Davis, CA 95616

IV. Published articles and reports in the fields of experimental toxicology and pathology

- [1] Wei C I, Al-Bayati MA, Culbertson M R, Rosenblatt, LS, and Hansen L D. Acute toxicity of ammonium metavanadate in mice. *Journal of Toxicology and Environmental Health* 10: 673-687, 1982.

V. Previous research grants and contracts at UCD

I served as principal investigator (PI), co-principal investigator (Co-PI), and investigator in many funded research grants and contracts. The following is a list of previously funded projects.

- Project Title: Quantitative Evaluation of Serum Chemistry, Hematology and Pathological Parameters in Dog, Sheep, and Pig Exposed To Whole Body Irradiation.
Agency: AMGEN Pharmaceutical Inc. Thousand Oaks, CA 91320
Duration: 30 months (1993-1995)
Amount: \$254,778
Functions: PI, toxicologist, and pathologist
- Project Title: Improved Models of Risk for Exposure to Organic Toxicant and Carcinogens.
Agency: United States Environmental Protection Agency
Duration: 48 months (1990-1995)
Amount: \$980,000
Functions: Co-PI, toxicologist, and pathologist
- Project Title: Improved Models of Risk for Exposure to Organic Toxicant.
Agency: United States Environmental Protection Agency
Duration: 36 months (1987-1990)
Amount: \$240,000
Functions: Co-PI, toxicologist, and pathologist
- Project Title: Dermal Absorption of Methanol and Gasoline/Methanol Mixtures.
Agency: California Air Resources Board

Duration: 18 months (7/90-12/91)
Amount: \$84,000
Functions: Co-PI, toxicologist, and pathologist

- Project Title: Toxicity of the Inhaled Dimethylselenide in Adult Rat.
Agency: University of California, Riverside
Duration: 12 months (07/87-07/88)
Amount: \$70,000
Functions: Co-PI, toxicologist, and pathologist
- Project Title: Inhalation Uptake of Xenobiotic Vapors in People.
Agency: California Air Resources Board; Contract No. A5-155-33
Duration: 18 months (1986-1987)
Amount: \$150,000
Functions: Investigator, toxicologist, and pathologist
- Project Title: Effects of Airborne Particulate Matter.
Agency: California Air Resources Board; Contract No. A4-133-33
Duration: 24 months (1985-1987)
Amount: \$250,000
Functions: Investigator, toxicologist, and pathologist
- Project Title: Gastrointestinal Tract Uptake of Benzene in Drinking Water, and Consequent Tissue and Fetal Retention.
Agency: Toxic Substance Research and Teaching Program, University of California, Davis
Function: 12 months (1986-1987)
Amount: \$50,000
Functions: Co-PI, toxicologist, and pathologist
- Project Title: Inhalation Uptake of Xenobiotic Vapors at Trace Levels.
Agency: California Air Resources Board; Contract No. A3-132-33
Duration: 18 months (1984-1986)
Amount: \$140,000
Functions: Investigator, toxicologist, and pathologist
- Project Title: Toxicity and Toxicokinetics of Vanadium in Rodents.
Agency: United States Department of Energy
Duration: 72 months (1981-1987)
Functions: Co-PI, toxicologist, and pathologist
- Project Title: Studies of Biological Behavior of Pu-241 and Am-241 in Rat, Dog, and Primate.
Agency: United States Department of Energy
Duration: 72 months (1980-1986)
Functions: Investigator, toxicologist, and pathologist

-
- Project Title: Respiratory Tract Deposition of Inhaled Aerosols in Small Rodents.
Agency: United States Environmental Protection Agency
Duration: 60 months (1980-1985)
Amount: \$500,000
Functions: Investigator, toxicologist, and pathologist
